As a 501 non-profit are we interested in making money? The answer is yes. Let me show you how. Say you have a business, you want to express your thanks to your customers, You buy a block of Caring Choice Cards in say \$25 denomination, your customer reads the back of the card and chooses from over 100 local charities. They contact the number on the back , make the selection and voila! every one is a winner. Sounds simple—it is. More info: [www.caringchoicecard.org](http://www.caringchoicecard.org).
